Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative further explained the method step of introducing defects to the reference aircraft. Specifically that the disclosed invention accomplishes this by using parts known to be defective. It was recommended by the office that the language of claims 1 and 20 be amended to expand 'introducing defects' to language along the lines of 'introducing defects by introducing known defective parts into the rotor...' Applicant's representative chose to consult the applicant before a decision can be made.
